

# CONTAINER DEPOSIT SCHEME

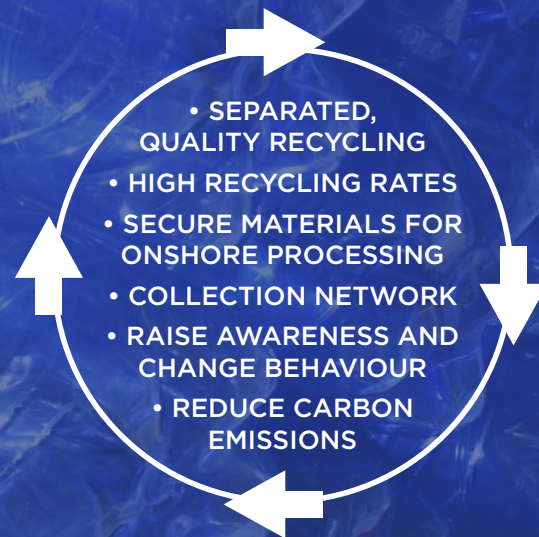

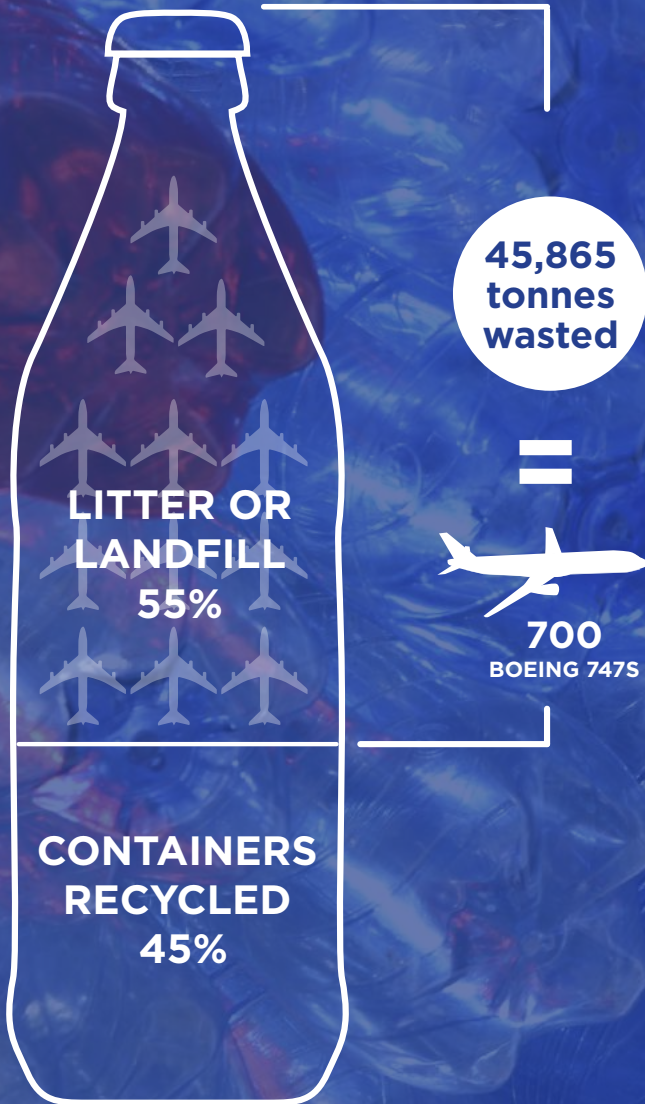

## CIRCULAR ECONOMY

CDS is a proven product stewardship scheme which would make the transition to a Circular Economy possible. CDS would double recycling rates for beverage containers and sort out the low quality issues in our recycling system.

**SOUTH AUSTRALIA RECYCLES 80%**

The benefits of CDS are proven in 40 countries and states around the world.

## KEYS TO SUCCESS

Mandatory product stewardship with 85% target

Independent managing agency coordinates flows

Broad group stakeholders to design system

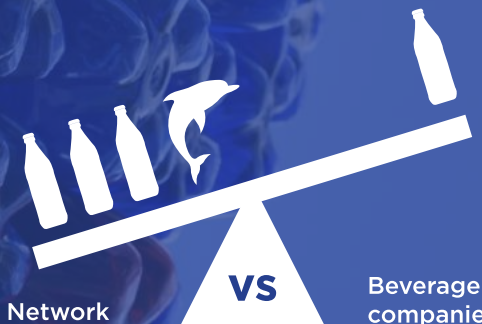

Network of depots, collections and RVM's

- 2,400 JOBS
- \$ FOR COMMUNITY GROUPS
- Scouts in Australia make \$24 million per year
- \$ 26-40 million
- Frees up cash for other council priorities

Our recycling system is broken. Massive stockpiles of mixed plastics and paper from co-mingled collections are piling up. Contaminated glass is going to landfill. We need to fix it so we can shift to a Circular Economy.

## COMMUNITY BENEFITS

Public Councils  
NGO's  
Para Kore  
Zero Waste Network

Beverage companies

# CONTAINER DEPOSIT FLOWS
