

Introduction to Zero Waste & the Circular Economy

Join Aotearoa NZ's waste minimisation leaders for an engaging and fun training course that provides a comprehensive overview of zero waste principles and practice.

Who is this training for:

- Members of community organisations interested in undertaking waste minimisation including reuse, repair, community composting and other local social enterprise
- Businesses and individuals interested in the circular economy and/or expanding their environmental, zero waste and resource recovery knowledge
- Elected members of local government with responsibilities under the Waste Minimisation Act
- Local government staff involved in community economic and local development, waste minimisation and climate mitigation
- People interested in living a zero waste lifestyle

What we cover:

Each of these half-day sessions are available as stand-alone courses
